Please note the following:

- To attend this workshop, you must be an active candidate in the certification process. If you haven't been active and would like to attend this course, this is your time to get re-engaged in that process. Board Certified doctors are also welcomed to attend.
- There will be pre course readings and an application form to be submitted prior to the workshop.
- Attendees should bring one set of pre-and post x-rays that you have questions or concerns about.
- The hours are long and will require the doctor's full participation. This is not a class where you come to sit, listen and drill the same steps commonly used at conferences.
