NUCCA NEWS

NEWSLETTER OF THE NATIONAL UPPER CERVICAL CHIROPRACTIC ASSOCIATION - NUCCA

PRESIDENT'S Letter

I would like to begin by thanking all the members for their dedication, thoughtfulness, and commitment to NUCCA. The attendance and focus during the classes were remarkable. Additionally, the engagement and discussions during the annual board meeting demonstrated the members' willingness to speak openly and freely about various issues. This has inspired many to contribute to the growth and improvement of our organization while maintaining the highest standards in chiropractic care.

The Spring conference showcased several new presentations that offered fresh perspectives on the fundamentals and nuances of correcting the ASC. A one-on-one approach was provided for those who submitted images in advance, allowing participating doctors to gain valuable insights on how to enhance their specific cases. Discussions who demonstrated the subtleties of our work, and the rigors involved in the certification process.

Dr. Gordon Hasick also taught a new class on the significance of practicing before seeing patients and ways to implement new concepts so doctors can perform adjustments in a more focused manner.

The conference hours were slightly adjusted to allow for an earlier departure time while still accommodating all the CEU hours. This adjustment aimed to improve attendance toward the end of the conference, benefiting those who needed to leave early. The feedback was excellent, as evidenced by the significantly larger number of doctors who could take advantage of classes they would normally have missed. I would like to acknowledge Dr. Kurt Sherwood, his team, and Drs. Julia
